MENTOR

MINDAUGAS JUODIS

Mindaugas Juodis is an active creator of contemporary painting with an exceptional creative style. He has organized many exhibitions in Vilnius, Kaunas, Šiauliai, Klaipėda. His works have been shown in Cyprus and India.

“I like graphic boundaries to place a limit on the space, with layers, including both straight and curved lines traveling throughout, deeply exploring the energy within. My work is rich in texture with subtle color combinations, and the organic subtly succumbs to instantaneous moods creating a deep sense of encoding“.
